

AMERICA'S POPULATION IS OUT OF CONTROL!

EARTH DAY 1970: 203 MILLION PEOPLE

EARTH DAY 2008: 303 MILLION PEOPLE

EARTH DAY 2050: 450 MILLION PEOPLE!!!

Americans joined together at the first Earth Day to say "enough is enough" when it comes to environmental devastation. However, our nation's population – the prime source of so much environmental destruction and ruin – continues to skyrocket.

It's time to act!

NPG needs your help today to advance our Campaign for a National Population Policy. We must put pressure on Congress to create a U.S. Commission on Population Growth that will ensure that America's fragile environmental treasures do not continue to be destroyed for the sake of "greed and growth."

A U.S. Commission on Population Growth can work to save our quality of life for future generations and help us reach a point where we can halt and reverse our population growth to ensure a sustainable future for all.

Do your part! Sign and return our Citizen's Petition today, or go to www.npg.org.

CITIZEN'S PETITION TO CONGRESS CAMPAIGN FOR A NATIONAL POPULATION POLICY

YES! I agree that America is on track to a disastrous environmental future and we need to rein-in our skyrocketing population. I call on you as my voice in Congress to support the immediate creation of a U.S. Commission on Population Growth
