**Our Future is in Great Jeopardy.**

Imagine a world without natural resources, a world riddled with environmental destruction, a world that is at the brink of utter devastation. Is this a world you want to leave for your children? For the next generation of our great United States?

America faces a serious crisis: Overpopulation.

The problem is simple. There are too many people, and not enough resources. Increasing fertility and immigration rates are debilitating our economy and resources. If we don’t do something about it now, our future generations face a bleak reality.

Stand with Negative Population Growth and fight for a sustainable future. We have the answers to America’s overpopulation problem; let’s work together for a sustainable tomorrow.

Visit NPG.org and stand up for our future.
